Note: Upper Yellowstone River side channels were digitized from a partially rectified 1948-49 channel mosaic (streamflow varied from about 2000 cfs to 4000 cfs on the 1:20,000 and 1:37500 scale aerial photos used). 1999 side channels were digitized from project 1:24000, 1:8000 and 1:6000 scale orthophotos (streamflow of 1500 cfs).

Preliminary data subject to revision. DNRC Water Management Bureau, Helena, MT.
